

DAMIR ROJE, specijalist ginekologije i opstetricije, subspecijalist fetalne medicine i porodništva, primarijus, redoviti je profesor Medicinskog fakulteta i Sveučilišnog odjela zdravstvenih studija Sveučilišta u Splitu. Rođen u Splitu (1967.), diplomirao na Medicinskom fakultetu Sveučilišta u Zagrebu (1992.) i doktorirao na Medicinskom fakultetu Sveučilišta u Splitu (2009.). Dugogodišnji je pročelnik Zavoda za perinatologiju Klinike za ženske bolesti i porode KBC-a Split (2009. – 2019.) i glavni mentor specijalizantima iz ginekologije i porodništva u matičnoj ustanovi. Istraživač je na dva znanstvena projekta. Autor je ili suautor 69 indeksiranih radova (Scopus: h-index 14, citata 581), 62 kongresna sažetka i osam poglavlja u knjigama te sveučilišnog udžbenika U Rađaonici. Pozvani je predavač na 52 kongresa ili simpozija, sve iz domene perinatologije. Područje užeg znanstvenog interesa su mu posteljica, fiziologija fetusa i fetalni rast. Pokazuje poseban senzibilitet za organizaciju i provedbu edukacije studenata, specijalizanata, primalja i medicinskih laika. Dva puta je dobio Pohvalnicu Medicinskog fakulteta Sveučilišta u Splitu za najkvalitetnije izvođenje nastave po ocjeni studentske ankete u kategoriji svih nastavnika. Član je Edukacijskog odbora Svjetske udruge perinatalne medicine. Potiče stručnu i znanstvenu suradnju porodničara dalmatinskih bolnica, zbog čega ga je Hrvatski liječnički zbor – podružnica Zadar nagradio Zbirkom odluka i propisa utemeljenja primaljske škole u Zadru iz 1820. (2021.). Inicijator je i organizator postavljanja replike reljefa Gospe o' poroda iz XVI. stoljeća i stele primalje Elije Sotere iz III. stoljeća u atriju Klinike. Na osobnu inicijativu i nakon organizacije simpozija u čast utemeljitelja Klinike za ženske bolesti i porode KBC-a Split, seminarske dvorane i predavaonice u Klinici nose imena svojih odličnika. U finalizaciji je višegodišnjeg projekta muzeja Klinike. Odlikovan je Poveljom Hrvatskog liječničkog zbora za 2015. godinu i odličjem "Ladislav Rakovac" za 2021. godinu. Redoviti je član Akademije medicinskih znanosti Hrvatske od 2018. godine i potpredsjednik Podružnice Split od 2023. godine. Član je Rotary Cluba Split, u slobodno vrijeme bavi se humanitarnim radom. Hobi su mu putovanja i gastronomija.

Damir Roje is a specialist in gynecology and obstetrics, a subspecialist in fetal medicine, and a professor at the School of Medicine and the University Department of Health Studies, University of Split, Croatia. Born in Split (1967), he graduated from the School of Medicine, University of Zagreb (1992) and received his PhD from the School of Medicine, University of Split (2009). He has been the head of the Department of Perinatology at the Gynecology and Obstetrics Department, University Hospital Split, Croatia (2009–2019) and the main mentor for gynecology and obstetrics residents at that Institution. He is a researcher on two scientific projects, author or co-author of 69 papers (Scopus: h-index 14, citations 581), 62 conference abstracts, and eight chapters in medical books. In 2024 as the only author, he published a university textbook titled “In the Delivery Room”. He has been an invited lecturer at 52 congresses or symposia, all in the field of perinatology with special scientific interests in placenta, fetal physiology, fetal growth, and ultrasound. Showing a special sensitivity to the organization and implementation of education of students, residents, midwives, and medical laypeople, he twice received a Certificate of Commendation from the School of Medicine, University of Split for the highest quality teaching performance according to the student survey in the category of all teachers. A member of the Educational Committee of the World Association of Perinatal Medicine became in 2010. He encourages professional and scientific cooperation among obstetricians in regional County of Dalmatia hospitals, for which the Croatian Medical Association - Zadar branch awarded him with the Collection of Decisions and Regulations on the Establishment of the Midwifery School in Zadar from 1820 (2021). He is the initiator and organizer of installing a replica of the relief of Our Lady of Childbirth from the 16th century and the stele of the midwife Elija Sotera from the 3rd century in the atrium of the University Hospital of Split Gynecology Department. On personal initiative and after organizing a symposium in honor of the founder of the same Department, the seminar rooms and lecture halls bear the names of their distinguished founders. The finalization of his multi-year project for the Department Museum is in progress. He was awarded the Charter of the Croatian Medical Association (2015) and the Ladislav Rakovac medal in 2021. At the end of 2024, he is leaving the public health sector and continuing his career at the Hormona Polyclinic – Center for Women’s Health. A Croatian Academy of Medical Sciences member since 2018 and Vice President of the Split Branch since 2023. As a Rotary Club Split member, he engages in humanitarian work and local community promotion. His hobbies are traveling and gastronomy.
