

**Tomislav Badel** rođen je 24. rujna 1971. godine u Zagrebu, gdje je završio za zubotehničara. Diplomirao je studij stomatologije na Stomatološkom fakultetu Sveučilišta u Zagrebu 1995., gdje iste godine postaje znanstveni novak pri Zavodu za mobilnu protetiku. Upisao je iste godine poslijediplomski studij. Magistrirao je 2000. temom *Učestalost promjena na mekim tkivima čeljusnih zglobova u populaciji mlađih muškaraca*. Doktorirao 2004. temom *Analiza pomaka zglobne pločice kod disfunkcije čeljusnog zgloba metodom magnetske rezonancije*. Iste godine polaže specijalistički ispit iz stomatološke protetike. Redoviti profesor u trajnom izboru je od 2024. Sudjeluje u nastavi na integriranom dodiplomskom i diplomskom studiju iz predmeta *Pretklinička mobilna protetika, Laboratorijska mobilna protetika, Klinička mobilna protetika i Okluzija* vođenjem pretkliničkih i kliničkih vježbi te držanjem seminara, odnosno predavanja i ispita. Osmislio je i vodi dva kolegija poslijediplomskog studija: *Dijagnostika i terapija temporomandibularnih bolova* u okviru doktorskog studija te *Načini liječenja temporomandibularnih poremećaja* u okviru specijalističkog studija. Recenzent je u 51 stranih i domaćih časopisa te član uredničkog odbora časopisa *Journal of Dental Problems and Solutions*. Član je Hrvatskog društva za stomatološku protetiku, Hrvatskog društva za lokalnu anesteziju i analgeziju, Hrvatskog katoličkog liječničkog društva, Hrvatskog neuroradiološkog društva i Međunarodnog udruženja za proučavanje boli (IASP).

**Tomislav Badel** was born on September 24, 1971 in Zagreb where he completed secondary school for dental technicians. He graduated in Dental Medicine from the School of Dental Medicine, University of Zagreb in 1995. In the same year, he became a junior researcher at the Department of Prosthodontics, School of Dental Medicine, University of Zagreb, and began postgraduate studies. In 2000, he obtained a Master's degree with the thesis on "Frequency of soft tissue changes on temporomandibular joints in younger male population". He earned his PhD degree in 2004 at the School of Dental Medicine, University of Zagreb, with the thesis on "The analysis of temporomandibular joint disc displacement using the magnetic resonance imaging". The same year he became a Specialist in Prosthetic Dentistry. In 2024, he was appointed Full Professor with tenure. He participates in teaching at the integrated undergraduate and graduate study program including courses of Preclinical Removable Prosthodontics, Laboratory Removable Prosthodontics, Clinical Removable Prosthodontics, and Occlusion, both preclinical and clinical practicals and seminars as well as lectures and examinations. He created and leads two postgraduate courses: *Diagnostics and Treatment of Temporomandibular Pain* (doctoral study program) and *Treatment Methods of Temporomandibular Disorders* (specialist program). He is a reviewer in 51 international and Croatian scientific journals and a member of the editorial board of the *Journal of Dental Problems and Solutions*. He is also a member of the Croatian Society of Prosthetic Dentistry, Croatian Society of Local Anesthesia and Analgesia, Croatian Catholic Medical Society, Croatian Neuroradiological Society, and the International Association for the Study of Pain (IASP).
